

## Transformation Claims

The jurisdiction listed in the table below had transformation credit included in the annual per capita disposal rate for its 2007-2011 Review Cycle. In accordance with PRC Section 41783, transformation must meet the following requirements:

1. Front-end recycling occurred prior to transformation.
2. The transformation facility conducts routine ash and residue testing.
3. The transformation facility was permitted prior to 1/1/95 in accordance with PRC Section 44150.
4. The jurisdictions continue to have effective implementation of their respective SRREs.
5. The transformation facility is in compliance with all applicable air quality laws, rules, and regulations.

Per SB1016, this calculation allows up to 10 percent of the average (2003 through 2006) calculated per capita generation tonnage to count towards per capita transformation credit.

Note: There are other jurisdictions that also sent material to transformation facilities, but the impact on the annual per capita disposal rate for these jurisdictions was less than 0.1 pounds per day (ppd) and did not change the annual per capita rate.

### 2008

County	Jurisdiction	Total Transformation Tons	Annual Pounds Per Capita Rate (ppd)	Transformation Rate (ppd)	Annual Pounds Per Capita Rate w/Transformation (ppd)
Fresno	Huron	863	3.6	0.6	3
